

1. Think of the easiest order in which to add the three numbers in each box. (Hint: Look for the two numbers that add up to 10 first.)
2. Write the number sentence to show the order and the sum. The first one is done for you.

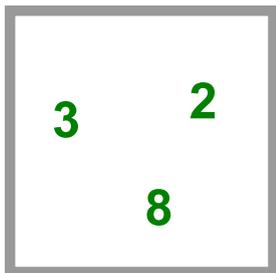

$$\underline{6} + \underline{4} + \underline{5} = \underline{15}$$

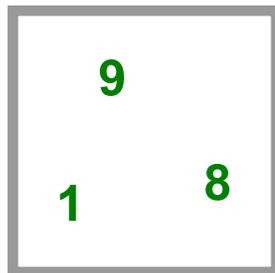

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

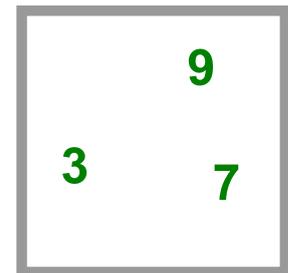

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

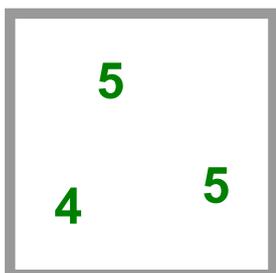

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

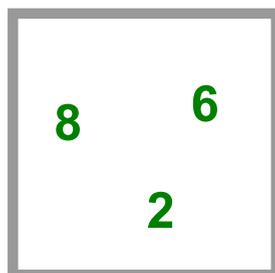

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

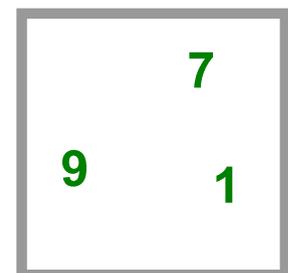

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$$
