### Notes:

- Practice the song with this version <https://youtu.be/EFIkIz6YM-w>, but make your recording with the instrumental version (<https://youtu.be/XaJkvvbZjE>). For the best results, keep the volume of the instrumental music down and the recording device close to you so it captures your voice better. Sing loudly.
- If recording with a smartphone, be sure to rotate it to a **Horizontal Position**.

Our finished video should look similar to this one: <https://youtu.be/gQAXwFlyhdc>
